

CEA AWARDS

GLOBAL CIVIL ENGINEERING AWARDS

CALL FOR PROFILE – CEA AWARDS

About Awards: Global Civil Engineering Awards takes the privilege to awarding the Industries, Academicians, Researchers, Scientist, and Regulators from Science, Health and Medical fields across the globe to its International Events. Global Civil Engineering Awards is an annual gathering. This Event is a unique international platform that's a meeting of all Researchers. We look forward to personally welcoming all the award winners.

Objectives: Global Civil Engineering Awards International Events is awarding high quality Researchers in different subfields. The purpose of award ceremonies and assemblies is to celebrate researcher achievements and motivate them to continue on their path. The Good researchers are more motivated to succeed in their research field. People want to be respected and valued by others for their contribution. Offer the opportunity to be updated on the latest research outputs on several topics. Organize specific workshops around the most attractive and current issues. Gather worldwide experts as Event speakers.

Key Features: Excellent Venue | Inspiring Speakers | Certificate | Medal | Memento | Stage Photograph | Awardees listed on website.

Award Categories: Research Excellence Award | Young Scientist Award | Best Researcher Award | Women Researcher Award | Best Innovation Award | Best Faculty Award | Best Scholar Award | Excellence in Innovation | Excellence in Research | Outstanding Scientist Award | Lifetime Achievement Award | Excellence in Research Award | Best Paper Award | Excellence in Civil and Environmental Engineering Award | Most Cited Paper Award | Innovator of the Year Award | Breakthrough Research Award

Topics of Awards Subjects include, but are not limited to: Structural Engineering | Geotechnical Engineering | Transportation Engineering | Water Resources Engineering | Environmental Engineering | Construction Management | Materials Science and Engineering | Urban Planning | Coastal Engineering | Structural Health Monitoring | Earthquake Engineering | Risk and Resilience Engineering | Water and Waste water Treatment | Environmental Chemistry | Solid Waste Management | Environmental Microbiology | Environmental Hydrology | Sustainable Development | Environmental Risk Assessment | Air Pollution Control | Environmental Modeling | Environmental Policy and Management | Climate Change Mitigation and Adaptation | Green Infrastructure | Industrial Ecology | Environmental Ethics
